Profile

Passionate iOS Developer with hands-on experience building intuitive, high-performance apps using Swift and SwiftUI. Actively expanding backend skills with Java, Spring Boot, and MySQL, focusing on RESTful APIs and secure authentication, and gaining cloud proficiency with AWS services. Eager to grow as a full-stack developer and contribute to scalable, impactful software solutions.

Education

- **BSC. SOFTWARE ENGINEERING** | JANUARY 2024 - PRESENT | **University of Bedfordshire**
- **NEPAL EDUCATION BOARD** | JUNE 2020- JULY 2022 | **Budhanilkantha School**

Experience

Junior iOS Developer | Coredreams Innovation | November 2024 – April 2025

- Built a Ride Booking System with SwiftUI, focusing on a seamless user experience.
- Integrated Firebase Authentication and Firestore for secure login and real-time data.
- Used Combine for efficient API calls and reactive data handling.
- Added Google Maps for location tracking, route optimization, and background services.

Cloud Apprenticeship | Adex International | April 2025 – June 2025

- Gained hands-on experience with core AWS services, including EC2, S3, Lambda, and RDS, focusing on the cloud infrastructure setup and management.
- Learned to design, deploy, and monitor scalable cloud solutions using best practices in security and cost optimization.

Projects

- **Event Ticketing API** (Java, Spring Boot, PostgreSQL) – Built a backend API with seat locking and concurrency control to prevent double booking, including JWT authentication and payment simulation. [GitHub](#)
- **E-Pustakalaya** (JSP, Servlets, Apache Tomcat) – Library Management System (Role-Based Features). [GitHub](#)
- **Product Management System** (Java, Spring, Spring Boot, MySQL) – Developed the backend for managing products, including creation, retrieval, updating, and deletion functionalities. [GitHub](#)
- **Karya** (SwiftUI, MVVM) – Built a task management app with MVVM architecture and responsive design. [GitHub](#)

Technical Skills

- Programming Languages: Swift, Java, Python
- Backend & Database: Spring, Spring Boot, Firebase (Authentication, Firestore, Realtime Database), MySQL
- Cloud & Version Control: AWS (EC2, S3, Lambda, RDS), Git, GitHub, GitLab

Certifications

AWS Certified Solutions Architect – Associate (Amazon Web Services)

CCNAv7: Introduction to Networks (Cisco Networking Academy)
